Objective

- Final-year B.Tech CSE (AI & ML) student with strong skills in SQL, Python (Pandas, NumPy, Matplotlib), and data analysis. Experienced in data cleaning, exploratory data analysis, and feature engineering through academic and real-world projects. Familiar with Power BI, Tableau, and Excel for creating visual reports and dashboards. Certified AWS Cloud Practitioner (CLF-C02) with a solid foundation in cloud concepts and data-driven problem solving.

Technical Skills

- **Programming & Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn)
- **Database:** SQL (Joins, CTEs, Views, Indexes, Triggers)
- **Visualization Tools:** Excel, Power BI (basic)
- **Data Techniques:** Data Cleaning, EDA, Feature Engineering
- **Cloud:** AWS (EC2, S3, IAM, Analytics Services)

Projects

- **Customer Shopping Behavior Analysis — Python, MySQL, Power BI**
 - Performed end-to-end data analysis including data loading, cleaning, handling missing values, and feature preparation using Python.
 - Connected Python to MySQL Server to store cleaned data and executed SQL queries to derive key business insights.
 - Conducted exploratory data analysis (EDA) to identify customer patterns, purchase trends, and revenue drivers.
 - Designed an interactive Power BI dashboard to visualize insights and support data-driven decision-making.
- **Patient Wait List Dashboard — Power BI**
 - Developed an interactive healthcare analytics dashboard to monitor patient waiting lists and optimize hospital performance.
 - Designed multi-page Power BI reports that analyze data for 2018-2021 patients by case type, specialty, age group, and time band.
 - Implemented DAX measures for dynamic KPIs (median vs average wait time)
 - Built drill-through, tooltips, and slicers for interactive exploration and insights.
- **Pricer.Pro: AI-Powered E-commerce Intelligence Suite**
Tech: Python (FastAPI), Selenium (Stealth), XGBoost Machine Learning
 - Built an AI tool that scans top shopping sites (like Myntra/AJIO) to find the "perfect price" for any product.
 - Used advanced techniques to collect data without being blocked by website security systems.
 - Added a "sentiment" feature that reads product titles to figure out if an item is trending or popular.
 - Designed a modern, easy-to-use dashboard that shows price trends through simple, interactive charts.

Education

- **B.Tech in Computer Science & Engineering (AIML)** – MIET College, Meerut, India
- Current CGPA: 8.6 / 10 2022 - 2026

Certifications

- Introduction to Cloud 101 – AWS & Credly - 2025
- AWS Certified Cloud Practitioner (CLF-C02) - 2025

Additional Highlights

- Strong teamwork, problem-solving, and adaptability skills.
- Media Manager – Computer Society of India. (Managed event promotions, designed content, and handled media coordination for college activities. Developed organizational and teamwork skills.)
